Software Engineer | Miami, FL, USA | 4015453982 | fveranicola@gmail.com | linkedin.com/in/fveranicola

Work Experience

Ternary Inc   San Francisco, CA
Software Engineer (Remote)   May '22 - Oct '24

- Developed and delivered 15+ key full-stack features in collaboration with product managers and stakeholders, directly contributing to high-value projects.
- Led the development of a scalable and customizable dashboard feature, leveraging React libraries and optimizing database models to enable flexible, real-time data visualization.
- Implemented app-wide search functionality, doubling usability for new users and internal employees, as part of multiple UX/UI initiatives that enhanced overall platform accessibility.
- Resolved high-priority bugs impacting customer contracts worth over $100k, improving platform reliability and reducing the volume of support escalations.

Nomiso   Denver, Colorado
Contracted Full Stack Developer (Remote)   Mar '21 - Mar '22

- Collaborated with an offshore team to develop the early stages of a feedback aggregation and analytics platform, utilizing React, JavaScript, and AWS RDS, while coordinating across time zones and leading agile ceremonies.
- Redesigned and implemented a client-facing SDK that enabled seamless installation of feedback collection widgets on commercial websites, extending functionality to gather key metrics for future expansion to mobile and 10-foot (TV) devices.
- Laid the groundwork for a React Native SDK, focusing primarily on iOS usability and functionality, setting the foundation for a cross-platform feedback solution.
- Refactored large, complex React code files on the product platform site into modular, reusable components, significantly improving code readability and maintainability.

Education

Galvanize - Hack Reactor   Sept '21
Non-Degree Program (e.g. Certificate) | Full Stack Software Development
Advanced Software Engineering Immersive Program

Providence College   May '20
Bachelor of Arts (BA)
